## 1. Product description

- Filtering Half Mask to protect against particles without valve
- The product is constructed of 5 layers of fabric : 3 layers of Nonwoven ( 60 + 30 + 30 )  
2 layers of Meltblown ( 25 + 25 )
- Designed to ensure basic protection against solid and liquid aerosols. It is not a reusable particle filter mask. This mask is intended for personal protection only.

## 2. Destination of use:

- frequently used in pharmaceutical institutes, microbiology laboratories, textiles, metal industries, hospitals, wooden metal coatings and many other areas. They must also be used in environments that exceed the work exposure limit values (OEL)

- Model: NV 1008
- Type: Filtering Half Mask
- Class: FFP2
- Dimensions: 19 x 9.5 cm
- Colour: White
- Expiration date: 36 month
- Material: Nonwoven + Meltblown

Layer	Material	Weight	Type of material
1	Nonwoven	60 gr.	polypropylene
2	Nonwoven	30 gr.	polypropylene
3	Meltblown	25 gr.	polypropylene
4	Meltblown	25 gr.	polypropylene
5	Nonwoven	30 gr.	polypropylene

Nose clip – plastic and aluminum / integrated in the material

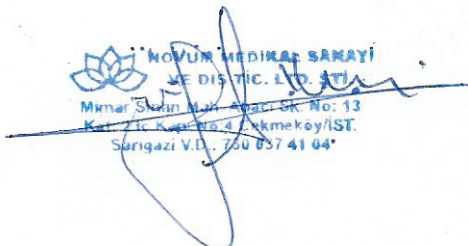

Straps: Latex-free rubber 500 micron

## 10. Regulations and standards applied:

- Regulation: EU 2016/425
- Standard: TS EN 149:2001+A1:2009

11. Manufacturer : Novum Medikal Sağ. Hiz. San. Dış. Tic. Ltd. Şti.

12. Stamp, signature
